

5

Critical Threats Can Knock Out Your Phone System

- 1 Severe weather or other natural catastrophes knock out phone lines.
- 2 Phone equipment breaks down with age until it finally gives out.
- 3 Power goes down in your building for an extended period of time.
- 4 Human error interrupts service – or worse, intentional damage.
- 5 Digital or analog telephones experience line or network interruptions.

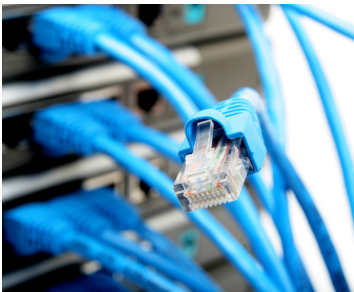

There's no getting around it: losing phone service for any reason, even for a short period of time, can cost you dearly. Your new prospects will hear busy signals or out of service messages and immediately call your competitors. Your loyal customers will begin rethinking their options. Every second your phone system is down, you're losing business.

Protect Your Profits – Make Sure Customers Can Reach You

PBX Disaster Recovery by FreedomVOICE, is a remote-managed Plan B virtual phone service designed to protect your business from phone system outages. Available 24/7, PBX Disaster Recovery is hosted in a secure collocation facility with redundant enterprise call switching hardware. This service is designed to seamlessly take over for your phone system during a disaster, providing you reliable backup. With our professional planning and over 13 years of providing secure virtual phone service, extended phone outages are no longer catastrophic to your business.

FreedomVOICE PBX Disaster Recovery includes:

- ✓ **Reliable Failover** Should your phone system go down, your virtual disaster recovery system can kick in and start rerouting calls immediately.
- ✓ **Seamless Transition** Your virtual disaster recovery system can be customized to imitate your standard auto attendant.
- ✓ **Cost Savings** Versus traditional failover lines, a virtual disaster recovery system is a significantly lower-cost solution.
- ✓ **Scalability** Your virtual system can be configured for multiple sites, scaled at-will, and has no limit on the number of simultaneous lines in use.

Don't wait until it's too late. Call 732-640-5555 x3 to back up your business phone system today.
